

Fruit Wreaths

Edible Bird Feeders

1. Find a piece of wire (*plain wire, floral wire, etc*)
2. Being careful not to poke yourself, add pieces of fruit and cranberries, covering up most of the wire
3. When you are done, wrap the 2 ends together
4. Attach a ribbon or piece of twine if you'd like!
5. Hang it outdoors from a tree or branch near your window so you can observe the birds enjoying it
