

## Auburn Public Library | Kite Program

*Thanks for joining our virtual program!*

### Kit making materials included in your program packet

It will be very helpful if you line up the materials according to the way they are in this photo. Doing so will make it easier to follow along with the instructors!

### Your packet includes, from left to right:

- ✂️ Kite body – clear plastic
  - There is a small heart on the end, to make it easier to determine how to place the kite for construction
  - It does not matter which side the heart is on – it is a placement guide only
- ✂️ Two bamboo sticks
- ✂️ One clear tail (folded in half in the photo)
- ✂️ One set of sparkly materials to include in the tail
- ✂️ String holder with 40' of string
- ✂️ String cut for the center
- ✂️ Shorter string for tying the bamboo sticks together in the center
- ✂️ Multiple strips for affixing the bamboo strips. Extras are included, as well as a square of foam sticker that can be cut to size if you need more
- ✂️ The decorations chosen by your child: (unicorns, USA, insect, or space themed)
- ✂️ Extra sparkly decorating objects (you will need a glue stick or regular glue to affix them)
- ✂️ It's recommended that you also have a pair of child-friendly scissors and a glue stick nearby in case they are needed

---

This story/instruction video is about 20 minutes long. Because it is pre-taped, you should feel comfortable pausing it if you need extra time, or you are welcome to view it several times.

*Enjoy the program!*
